

SESTIVA

A VIRTUAL
ASSISTANT
COMPANY

What is a Virtual Assistant?

A virtual assistant is a self-employed contracted professional who provides administrative, technical, social media, or creative assistance to clients remotely from their home office. They can work as little as one hour, a single ongoing task, one project, or managing much more than that. Consider it like an assistant time share.

Benefits of a Virtual Assistant

- Reduced workload - research, data entry, calendars, customer concerns, phone calls, social media, graphic creation, the list goes on and on
- Drive business growth through collaboration and idea sharing
- Decreased operational costs - no need to pay for physical desk space, phone lines, software licensing, health insurance, retirement matching or any other onboarding costs
- Low risk scalability for your business
- Strengthen a weakness or pain point in your business
- Access to the BEST talent, regardless of geographic location
- More work accomplished in less of your time means more leisure time for you, all while YOUR BUSINESS GROWS!!

TESTIMONIALS

"I am incredibly humble and aware that the vision and plan I've been able to see for the next six months to a year is a direct result of SESTIVA. I thank Katie for her voice, her creativity, and her positive and constructive feedback."

Heather Fleming,
owner of
In Purpose Educational Services

"Awesome! Thank you so much!
You're a wizard!" -Ken S.

"[SESTIVA] was a pleasure to work with and the turnaround time was amazing." -Amanda S.

"[SESTIVA] helped design a new gift certificate for my small business. It was great. I highly recommend." - Shannon S.

"After working with [SESTIVA], I was able to pay off my student loans. It was a goal we set together and it worked." - Suzanne R.
